NEWBERRY AND THE COLLEGE. President Cromer on Wednesday after the exercises were over made a talk on the college to the audience assembled in the opera house. He spoke of what the people of this community had done for the institution in the years gone by in the way of cash and patronage, and on their commencement day. The gradof the returns which had come to them in many fold during that time in the cash brought here by the presence of the college and the good influences put valedictorian, to represent the class and in motion by virtue of the existence and the work of the college here for the past quarter of a century. Next September will be twenty-five years since the re-location of the college in the city of ney Lanier. Newberry. Looking backward it seems that it was only yesterday, and yet it has been a quarter of a century. The purpose of Dr. Cromer's talk was to emphasize the fact that the college needed more room and a new building was a necessity, and that he wanted and expected the co-operation of the people of this community. There is no doubt he will secure both, for our people know what the college has done and appreciate it. President Cromer will not call on them in vain.

The two campaign parties are moving over the State smoothly and quietly, and the people are taking very little interest in the meetings and the attendance is small. The successful work in this campaign is not going to be done on the stump, but by personal work. In fact it is more a fight on personal popularity than on issues for there are no issues, as all of the candidates stand practically on the same platform. There is for once no opposition even to the dispensary, all the candidates for governor and other offices endorsing the

This weather is too hot to quarrel or fight, and we hope the candidates will fight it out pleasantly.

The Tenth Triennial International Sunday School Convention will be held in Denver, Col., June 26th to July 1st. The route selected by Dr. W. E. Pelham, of this city, chairman of the ham, of this city, chairman of the ated from the college while it was lo-State Executive Committee, is via the cated in Walhalla. It was only a short Southern Railway to Chattanooga by time ago that he was asked to take the Atlanta, Queen and Crescent to Lexington, Ky., Southern Railway through Louisville to St. Louis, connecting there with the Dixie Sunday School Special train solid through to Denver. The rate from all principal points in this territory for the round trip is \$46.00.

An interesting program, on which appear the names of some of the prominent speakers in this country, has been

Exercises Largely Attended-Able Addressess 1 by Prominent Gentlemen-Excellent Addresses by the Young Men.

The commencement exercises of Newberry College for 1902 closed Wednesday morning. A large and appreciative audience greeted the young graduates uating class this year is composed of eleven members, one of whom is a young lady. At a preliminary contest five were selected, together with the deliver addresses this morning. They, with their subjects, are:
W. F. Bedenbaugh, Prosperity, S

C. - Compulsory Education. C. D. Elmore, Oglethrope, Ga. - Sid-S. P. Frick, Chapin, S. C.-Ethics of

H. A. Fulmer, Chapin, S. C.-Cecil C. L. Wessinger, Fairbanks, S. C. Wade Hampton. J. K. Aull, Newberry, S. C.-Vale-

The other graduates are: M. P. Lindler, Chapin, S. C.; Wm. C. Summer, Newberry, S. C.; L. D. Wilson, Columbia, S. C.; J. M. Johnson, Newberry, S. C.; Ruth Wells, Newberry,

Dr. Cromer's parting talk to the graduating class was a gem. He known throughout the State as one of its best speakers, and he was at his best Wednesday morning. The address was full of feeling, of power, of thought, and of good advice.

The medal offered to that member of the graduating class writing the best essay on a subject assigned by the faculty was awarded to J. K. Aull, Newberry, S. C. The subject this year was "Dreamers." The presentation was made by Rev. W. L. Seabrook. The Senior History medal was award-

ed to J. M. Johnson, of Newberry, S. C. The award mas made by Mr. J. B.

The Sophomore Greek medal to Miss Lola Lake, of Newberry, S. C. Pre-sentation by Hon. Geo. E. Prince. The Medal for the best Freshman examination for entrance to the Sopho more class was awarded to John C. Hipp, of Newberry, S. C. Presentation by Hon. W. J. Stribbling.

THE ANNUAL ADDRESS

was delivered by the Hon. W. J. Striboling, of Walhalla, who was introduced by his former collegemate, the Hon. C. M. Efird, in a very pleasing and happy manner. Mr. Stribbling was a member of the class of 1876 and graduplace of the principal and deliver this address. Mr. Stribbling is a lawyer of large practice and very popular among the people of his own county.

His subject was "The Christian Edu-

cation of Our Youth the Only Hope of Perpetuating Our Institutions." said that about a quarter of a century ago, while an undergraduate of Newberry College, he had been selected publicly to debate the question, "Resolved, that the United States is the best government the world ever saw. He had succeeded in convincing himself at least that the affirmative of that would endure forever. And that the leaven of it would gradually permeate the body politic of all other governments and result ultimately in its be-

ments and result ultimately in its becoming universal. What a splendid
form of government! What a beautiful system! Would it accomplish its
purposes and stand the tests of time
and be able to resist the greed and selfishness of man. In his youthful ignorance, innocence and ardor he did not for a moment doubt it.

But since that time he had come to the conclusion that Congress nor Executives, nor Courts, nor written Constitutions, either one or all put together, are to be relied on to preserve our ideals of government. We have all these in force at the present moment, and yet we have but to take up our morning papers and read there of the progress of a war of subjugation even now going on under the Stars and Stripes. With all the progress that this country has made in a century and a quarter have we discovered the right to reverse the eternal principles of numan freedom and justice? In the Constitution we find Congress clothed with the power "to lay and collect taxes, duties, imports, and excises, and to provide for the common defense and

the general welfare of the United States? Do you see anything ambiguous in that language? Do you see anything in that language authorizing the imposition of taxes for protecting a small class of persons who may happen to be manufacturing a particular class of goods, in order that they may sell their goods to their fellow-citizens, the great mass of the American people, at enormously higher rate than they could many friends in this community who

otherwise get them for? Again, Congress is given the power 'to regulate commerce with foreign nations." This power is now being exercised by paying immense sums of money as bonus to owners of steamship lines to induce them to buy their ships from the American steel producers and shipbuilders who already have more work than they can do, and who are so immensely rich now that they are actually puzzled to find ways and means to spend their money.

Aye! But the Courts, says some

one, can be relied on promptly to correct such flagrant violations of the Constitution. A perusal of the Dred Scott case, and the recent cases involving the status of the Pacific and Atlantic Oceans that have recently fallen under our jurisdiction will show that after all our Courts are composed of men, not

angels!

If Congress and Courts cannot be relied on to perpetuate our institutions, how, then are we to do? In my judg-

"To thine own self be true And it must follow as the night the day, Thou canst not then be false to any man.'

THE ALUMNI ASSOCIATION. The annual meeting of the Alumni Association was held immediately after the annual address on Tuesday morning. The president and vice-president being absent, the Association was called to order by the secretary, Prof. Bowers. The election of officers resulted as follows: Archur Kibler, president, Newberry, S. C.; H. K. Boyd, vice-president, Newberry, S. C.; Miss Annie Suber, secretary, Newberry, S. C.; W. K. Sligh, treasurer, Newberry, S. C. Dr. Thos. H. Dreher, of the class of

for 1903. The selection of an alternate in case he is unable to perform the duty was left to the executive committee. The question of remodeling and revising the constitution looking to the formation of a working and active association was referred to a committee composed of the president, E. O. Counts, R. A. Abrams and W. K. Sligh, said committee to report at the next annual

The Association is now carrying a scholarship in the college, which is awarded by the faculty. The alumni are now strong enough to be of very material assistance to the college if there was general co-operation, but outside of a very few only those who attend the annual commencement pay the small annual dues of \$1.00 and therefore the Association has very little funds with which to operate. And yet the Association in the last few years has built a professor's house on the college campus and has been sustaining a scholarship in the college. The meeting was pleasant and har-monious throughout.

LITERARY ADDRESS.

The annual address before the literary societies was delived on Tuesday evening by Hon. Robert Aldrich. He was introduced by Mr. E. H. Aull. Mr. Aldrich is a State senator from the county of Barnwell, and has frequently been called upon by colleges and schools on similar occasions. His subject at this time was novel, something out of the ordinary and was treated in a bold and outspoken manner. His perora-tion was one of the finest outbursts of eloquence that have been heard in the opera house in a long time. We give herewith a full synopsis of the address. His subject was,

"THE PHILOSOPHY OF LYING." Col. Aldrich said that in the fact of ying, that which constitutes its business is that men can do no other wrong without lying. It is an old maxim that he who steals will lie. The same may be said of every other crime, for until a man makes up his mind to lie, will not commit any offence against the laws of God or man. He proceeded in the attempt to prove that all of the greatest crimes of the ages, which have filled the world with blood and wars and ruins, would have been impossible without lying, and also that the greatest men of history have been the greatest liars. He proposed to show that the greatest crime of the nineteenth century, the crime committed against the South by the north, the civil war, could not have been accomplished without lying, and as it was the greatest crime of the ages, it required the greatest amount of lying to accomplish it. Their states-men in their public speeches, their public writings, and all of their public utterances, did not dare to stand up in face of civilization or even before their own people and admit that they were determined on denying to the seceded States the right of self-government. They dared not say to their own people, and to the world, we are going to overthrow the Declaration of Independence, and the Constitution of the United States and subvert all the principles of our fathers; they knew that even the northern people would not vote money and send troops to suffer and to die to deny to any free people their rights. So what did they do to accomplish so great a wrong? What all men do when they go to do a wrong, what they have to And many and intricate will be the do to accomplish a wrong, they lied in proportion to the wrong they were about to commit. They fired the hearts about to commit. ple of the North. Lincoln's speech on the last leading of Cottysburg which This celebrated liniment removes

It is as immutable as the eternal Father from whom it springs. "Truth crushed to earth shall rise again. The eternal years of God are hers, but error, wounded, writhes in pain, and dies amidst her worshippers.

> The reception on the college campus was held on Wednesday night. It was very largely attended and was a brilliant affair. Refreshments were served, and those who attended were happy and joyous, and altogether it was a most fitting close to the exercises of one of the most successful commencements in the history of Newberry College.

the grovers who are handling "Clifton" flour are the ones who have the b -t class of trade and the tightest grip o it. "Cufton" is a flour of quality, and goes into the homes of people who want the best the market affords, and this applies in this free country to all from the lowest to the highest station. No sumptuary laws can prevent the humbest American citizen from buying the purest and best flour and every good housekeeper knows she gets the purest and best when she buys "Clifton." Bransford Mills, Owensboro, Ky.
